

A NEW VIEW OF MEDICINE
COMPOUNDED CATARACT, LASIK, GLAUCOMA & MYOPIA FORMULATIONS

2021

A NEW VIEW OF MEDICINE®

OSRX® proudly zigs where others zag. While drug prices soar and the patient experience sours, we're countering the traditional pharma model by providing quality compounded medications, as prescribed by physicians, that are easy to use and affordable.

Patient

OSRX provides practical corrective eye care products that are of high-quality, simple to dose and priced affordably. What truly separates us from the competition is that every one of our customers receives a commitment to excellence from each of our employees.

Simply stated, OSRX products are easier to use, which drives better compliance and efficacy for patients. And we surround this core competency with unrivaled customer care. This seemingly old-style philosophy is what drives us to go the extra mile for our doctors and the patients they serve. This has been and will remain the OSRX mantra that guides our company as we shape the future of vision care.

A handwritten signature in black ink, appearing to read 'AS' with a long horizontal stroke extending to the right.

Anthony Sampietro
OSRX Co-Founder/CEO

AMY FROST, B.S., PHARM.D., RPH CHIEF PHARMACY OFFICER

"OSRX has worked for years to develop a compounding process that is safe, reliable and convenient for our patients. We are constantly testing and adapting our methods to stay current, so that we can provide the best and safest option for each patient. Our staff is fully trained to meet the needs of our patients and we do so with compassion and dignity. We believe that by putting the patient first we are developing a culture of excellence."

Our organizational dedication to patient safety and quality is unrivaled. Much like the medications we compound, this unwavering commitment to excellence is achieved by combining three core ingredients: Our Team, Our Pharmacy & Our Formulations.

Our Team

Our dedicated, talented team has led OSRX to become certified by the Pharmacy Compounding Accreditation Board (PCAB), a designation reserved for less than one percent of compounding pharmacies in the U.S.

- Strictly adheres to precise sterile work preparation procedures
- Undergoes rigorous training
- Maintains skills certification and competency evaluations
- Participates in on-going education for QA, QC, Product Testing, Validation Testing and Environmental Monitoring

Our Pharmacy & Formulations

Our OSRX lab in Missoula, Montana, utilizes only the highest grade active pharmaceutical ingredients, the latest technology and equipment, and strictly adheres to USP 795 and 797 compounding guidelines.

- Lab and team members meet or exceed all rigorous national standards.
- All sterile manipulations are performed only by our pharmacists
- All pharmacists have earned advanced certifications in aseptic techniques
- Clean room is tested and certified
- Adherence to strict guidelines and safety means every ophthalmic formulation we compound is simple to use, effective and affordable

LAUREN SHULUND, CPHT
CUSTOMER SERVICE MANAGER

"We take pride in giving every patient the white glove treatment. We listen to our patients, make them feel comfortable, understand what they are going through and, ultimately, make sure they have what they need for their surgery. We're like the bar from Cheers, where you know everyone by name. The human touch goes a long way."

PATIENT EXPERIENCE IS AT THE HEART OF OSRX™. It's why our pharmacists and technicians are always just a phone call away, why we compound multiple medications into a single dose to simplify eye care and why we offer affordable, transparent prices.

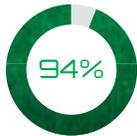

Here is what patients say about our formulations, pricing and services.*

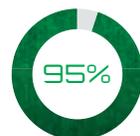

of patients **would recommend** OSRX to a friend or colleague.

of patients say that their OSRX formulation was **easy to use**.

of patients **enjoy** the convenience of taking fewer drops per day.

of patients say it's **more convenient** to have their medication shipped to their home (or doctor's office) instead of visiting a traditional pharmacy.

of patients report taking fewer drops per day **helped** them adhere to their dosing schedule.

of patients agree that their OSRX formulation was **reasonably priced**.

*Data according to OSRX patient satisfaction survey, July 7, 2020.

"They are so friendly and they are very efficient. They know me when I call. They know exactly what to do, exactly how I want it shipped. Everything is right there. It takes about two seconds and it's done. In fact, I wish it took longer because it's kind of fun."

-SILVIO, GLAUCOMA PATIENT

REAL TIME EXPERT SUPPORT WITH REAL PEOPLE

INTRODUCING OUR LIVE, ONE-ON-ONE ONLINE CHAT

We're committed to providing unrivaled customer service and support to you, your patients, and your staff. Now introducing our new online chat: a new way to reach out to our pharmacy when it's most convenient for you. Get the personalized assistance you need, when you need it, with real-time responses from real people. Speak one-on-one with a certified pharmacy technician today.

"We've worked with multiple compounding pharmacies in our quest to make drop therapy more convenient, cost effective and compliant. OSRX has delivered where no others were able - providing high-quality, user-friendly and affordable compounded medications with unparalleled customer service."

-PAUL MANN, MD, MANN EYE INSTITUTE & LASER CENTER

TOP TEN REASONS TO PRESCRIBE COMPOUNDED POST-OP DROPS

Since Letterman and his lists are hanging out somewhere in Montana these days, we turned to surgeons across America to give us their reasons for recommending OMNI drops from OSRX™.

"BECAUSE WHO WANTS SECOND BEST?"

~ Navin Tekwani, MD, Tekwani Vision Center / St. Louis, MO

"TAKING FEWER DROPS = MORE TIME WATCHING JEOPARDY!"

~ Matthew McCauley, MD, Berkeley Eye Institute / The Woodlands, TX

"COMPOUNDED POST-OP DROPS FROM OSRX HAVE GREATLY IMPROVED PATIENT COMPLIANCE DUE TO THEIR EASE OF USE...IT'S ALSO AN ECONOMIC SOLUTION FOR OUR PATIENTS."

~ Matej Polomsky, MD, Wilmington Eye / Wilmington, NC

"I GOT TIRED OF REVIEWING THREE-PAGE, COLOR-CODED DROP SCHEDULES WITH MY ROUTINE POST-OP PATIENTS."

~ Michael Stiles, MD, Stiles Eyecare Excellence (SEE) / Overland, KS

"RELIABILITY AND FREE SHIPPING – EVEN TO HAWAII!"

~ William Wong, MD, Hawaii Vision Clinic / Aiea, HI

"PATIENT CONVENIENCE AND COMFORT! OTHER COMPOUNDED DROPS WERE TERRIBLY UNCOMFORTABLE!"

~ Michael Rolfsen, MD, Waco Ophthalmology / Waco, TX

"I CHOSE OSRX BECAUSE OF THEIR REPUTATION OF EFFICIENCY, QUALITY, AND OUTSTANDING CUSTOMER SERVICE. NO MORE CALL BACKS COMPLAINING ABOUT PRICE OR WONDERING HOW MANY TIMES EACH BRANDED DROP SHOULD BE TAKEN."

~ Jacqueline Griffiths, MD, Reston, VA

"MY PATIENTS LOVE THE CONVENIENCE AND COST OF COMPOUNDED DROPS AFTER CATARACT SURGERY."

~ James Lehmann, MD, Focal Point Vison / San Antonio, TX

"I'M NOT A PHARMACIST! I DON'T KNOW HOW MUCH MY PATIENT'S DROPS WILL COST AT A TRADITIONAL PHARMACY – BUT I KNOW THE COST FROM OSRX FOR EVERY SINGLE PATIENT."

~ Marc Moore, MD, Graves Gilbert Clinic / Bowling Green, KY

"OSRX HAS STREAMLINED THE PROCESS OF ORDERING COMPOUNDED DROPS, MAKING IT EASY AND EFFICIENT FOR MY TEAM..."

~ Luke Rebenitsch, MD, Clear Sight Center / Oklahoma City, OK

OSRX COMPOUND DROPS BRING SIMPLICITY AND AFFORDABILITY TO EYE CARE MANAGEMENT

By **Steven R. Sarkisian, Jr., MD**, Founder and CEO of Oklahoma Eye Surgeons

ONMI combination drops from OSRX have radically changed my approach to the management of glaucoma as well as post-op cataract care. In my experience it is rare to have something that shifts my practice patterns this significantly.

Extensive studies have shown that patients very much prefer a simplified medication regimen. My patients report to me that the once-a-day drop plan, or one drop taken twice daily, is easier to manage than fumbling with a host of medicines several times a day. This is crucially important. Your eyes won't heal if you neglect to take your medicine.

Compounded drops from OSRX are not only beneficial for my patients from a compliance standpoint, but also from a cost perspective. The relatively low cost of compounded drops is a pleasant surprise for my patients, and the transparency of the cash-only price structure is a revelation. (*)

Conventional pharmacies and insurance coverage are a hassle for patients and doctors alike. Time spent on phone calls – trying to figure out which drop is covered, which generic medication is being substituted, which drop is least expensive for my patient – adds considerable overhead cost to both doctor and patient, while delaying precious time we could be using to meet a patient's clinical needs. (**)

It is time to say goodbye to phone-tag, waiting,

inefficiency and the smoke and mirrors of insurance formularies and excessive paperwork. My highly skilled and trained staff have better things to do than jump through hoops for third parties.

OSRX has demonstrated truly personalized service for my practice and my patients. The ability to reach out directly to OSRX customer representatives has made the doctor-patient process a breeze. OSRX is focused entirely on the consumer, which includes the seamless and secure online prescribing process.

OSRX has become an essential component of my patients' post-op experience and I am so excited to recommend OSRX to friends and fellow physicians. Using fixed combination drops from the OSRX compound pharmacy is simpler for everyone concerned. OSRX compounded formulations with superior customer service is the very model for high-quality, user-friendly and affordable eye care.

* OSRX is solely cash-pay, with no reliance on public or private insurance coverage or reimbursement.

** OSRX ships directly to the practice or patient for free.

Our team works hard to exceed all industry standards and requirements. To confirm sterile integrity, our clean room is tested and certified. To ensure accuracy, all sterile manipulations are performed only by our Pharmacists. All of our Pharmacists obtain an advanced certification in aseptic techniques specifically for compounding, which is beyond the industry standard. We take these steps and many more to ensure, with confidence, that you will receive the highest quality with each and every sterile medication we compound.
